READY? SET?

Prep your skin. Makeup will only ever look as good as your skin will allow. So really, get that sorted first. My skin is frequently dehydrated and suffering the effects of not-enough-sleep. I like 100% natural or certified organic advanced skincare.

Blend with your fingers and, if you want more coverage, build up in the areas you feel you need it more.

INSTANT EYE LIFT - 30 SECONDS

Use a light-weight, light reflecting fluid that has the power to give you an instant eyelift. I use a "triangle" technique which brightens and lifts the whole under eye area – so if you're exhausted, hungover, a little sunken and dark in that area – it provides the illusion of plumper, brighter, healthier happier looking you!
